Dear Pablo Marassi,

According to certification requirements, we are very sorry to inform you through the letter that the ISO9001:2008 certification AR-0043a-01 to ALPEMAR S.R.L by Intertek has been withdrawn with the effectiveness on April 29, 2015.

The reason for withdrawal is: There was no audit in the 2014 calendar year to maintain certification.

As of the effective date, please discontinue referencing the Intertek certification and usage of the certificate and certification marks in your documentation and marketing materials, presenting your organization as an Intertek certified company. Please discontinue use of Intertek banners or flags. We have removed your company from our directory of certified clients and we leave it to you to notify your customers of this change in the status of your certification.

All originals and photo-copies of the Certificate of Registration are to be returned to your contacted Intertek office

A certification that is withdrawn may only be re-instated after successful completion of a full on-site audit of the Organization's Management System.

If you have any questions, please feel free to contact us.
Sincerely,

Paula Duncan
Technical Supervisor
Intertek Business Assurance
